About This Game

Grimm: Dark Legacy is a tale of deep, dark exploration, hunger, and blood thirsty combat in a medieval setting.

You play the ancestors of the Grimm. Your story takes place inside the Wesen journal featured in the hit NBC TV series.

Hunt, gather, craft, and form a ruthless band of Grimm to defeat humongous hordes of Wesen on your journey. Can you survive?

Key Features:

- Online Co-Operative Gameplay
Build your own rag-tag team of up to 4 Grimm and work together to raid each country and deal out Grimm justice to the mayhem that lives there.
- Offline Singleplayer
Prefer to play full-rogue? Play offline without anything to hold you back!
- Dark & Twisted World
The beautiful game world is inhabited by a coterie of fauna and flora that you need to survive. Each of the 80+ mission areas spread across 10 countries are generated in real-time meaning there is no end to the unforgiving combinations of blueprints, Wesen, and other mysterious creatures out to get you.

- **Rogue-Lite Gameplay**

Collect loot and craft new gear to survive as long as possible. Death is inevitable, but it isn't the end! Pass your knowledge on to the next generation of Grimm and continue your adventure!

- **The Wesen You Know**

All Wesen in the game are drawn directly from the TV show and are imbued with a range of powers that make hunting them a real challenge.

It's a buggy mess in its current state.

Had an itch for a good collectathon platformer game after seeing some vids on Yooka Laylee, bought this because it fit the bill. Unfortunately, it's in rough shape at the current time. The dev is pretty active about fixing issues that people report, and that's good on him. However, The sheer number of bugs and issues in the game is staggering. I've reported quite a few myself, but every time I open the game I find more and more.

Let's talk about the gameplay, as bugs can be fixed. You've got a pretty standard collectathon platformer here. There's lots of different objects to find in the levels, with varying levels of difficulty required to collect them. It's all pretty standard, there's nothing that I've seen that introduces anything new to the genre. Combat feels pretty fluid, you'll be weaving in and out of battle with the various creatures. You'll often times find yourself getting hit without much warning though, which can be frustrating. The platforming is hit or miss. Vertical climbing feels the most challenging, you can clip on the edge of platforms and have to repeat jumps often. Precision jumps to specific points, such as a pole, are difficult at times as well. The level design is alright, there's decent variation in how the levels are arranged. There's a lot of reused assets for every theme (ice, fire, etc) world though.

The music for the game is probably my favorite part, he did a very good job with the sound track.

Even ignoring the bugs, it's a very generic platformer. You can find better, or wait for Yooka Laylee.

. best dollar ever spent

. 2 hours in and I can tell this game will be continuous fun. I shoot USPSA with my father and brother, and they are both looking forward to playing.

Game definitely could use some more effects but as a start, it's awesome. Good gun selection, has all the classes we shoot, and has an accurate stage design. Looking forward to updates!. There are indeed pugs: pugs in hats, pugs in capes. Worth every one of the 59 cents I paid.. Great boardgame, but implementation leaves a lot to be desired. Digitization could have been done a lot better - disappointing.. Weak campaign DLC. A decent boss fight at the end does not make up for the poorly designed levels. Don't bother unless this is the last piece of the Serious Sam series you have left to play.
